Foreword

India has a rich tradition of nurturing the holistic development of children during their most formative years. These traditions provide for complementary roles for the immediate family, the extended family, the community, and formal institutions of care and learning. In addressing the first eight years of a child's life, this holistic approach — which includes the cultivation of *sanskar* which are passed on from generation to generation — has a critical and positive lifelong influence on every aspect of a child's growth, health, behaviour, and cognitive capabilities in the later years.

Considering the importance of the early years in a child's lifelong development, the National Education Policy 2020 (NEP 2020) envisioned a 5+3+3+4 curricular and pedagogical structure as providing a much needed focus on formal education and childcare in the country during the first five years corresponding to ages 3-8, naming it the Foundational Stage. Classes 1 and 2 form an integral part of this Foundational Stage, continuing from the ages of 3-6 years, in which a child's holistic growth is taken care of in *Balvatika*. An individual's lifelong learning, social and emotional behaviour, and overall health depend deeply upon the experiences gained during this critical Foundational Stage.

The Policy thus recommended developing a National Curriculum Framework specifically for this Stage, which would comprehensively guide the whole education system toward providing high-quality education in children's early years, thereby carrying this momentum forward to the other later stages of school education. Based on the principles and objectives enunciated under NEP 2020 — as well as on research from a range of disciplines (including neuroscience and early childhood education), on experiences and accumulated knowledge from the ground, and on the aspirations and goals of our Nation — the National Curriculum Framework for Foundational Stage (NCF-FS) was developed and released on 22 October 2022. Subsequently, textbooks have been developed to bring to life the curricular approach of the NCF-FS. The textbooks attempt to connect to the children's real life by recognising their learning in the classroom and the significant learning resources in the family and the community.

The approach in the NCF-FS is also resonant with the *Panchkoshiya Vikas* (the development of the five sheaths of human personality) as elucidated in the *Taittiriya Upanishad*. The NCF-FS enunciates the five domains of learning, i.e., physical and motor; socio-emotional; cognitive; language and literacy; and cultural and aesthetic, which map to the Indian tradition of *Panchkosh* consisting of five *kosh* viz. *Annamaya*, *Pranmaya*, *Manomaya*, *Vijnanmaya* and *Anandmaya*. Besides, it also focuses on integrating a child's experiences at home with the knowledge, skills, and attitudes that would be developed within the school's precinct.

The NCF-FS, which covers Classes 1 and 2, also articulates a play-based approach to learning. According to this approach, books form an essential part of the learning process; however, it is also important to understand that books are only one among many pedagogical tools and methods, including activities, toys, games, conversation, discussion, and more. This marks a departure from the prevailing system of merely learning from books to a more congenial play-way and competency-based learning system, where children's engagement with what they do and learn becomes critical. Thus, the book in hand must be seen as an instrument to promote a play-based pedagogical approach in its entirety for this age group of children.

The present textbook attempts to provide competency-based content in a simple, interesting, and engaging manner. The endeavour has been to make it inclusive and progressive by breaking several stereotypes through the presentation of text and illustrations. The child's local context, which includes traditions, culture, language usage, and rootedness in India and is central to students' holistic development, has been reflected in the books. An effort has been made to make it engaging and joyful for the child. The book integrates art and craft to help children appreciate the aesthetic sense inherent in such activities. The textbook provides children with situational awareness to understand the underlying concepts relating to them in their own contexts. Though light in terms of content, this textbook is rich in substance, providing varied experiences and integrating play-way methods of learning through toys, games, and a variety of other activities. It includes questions that will help children develop critical thinking and problem-solving abilities. Besides, the textbook has rich subject matter and activities to help children develop the necessary sensitivity towards our environment. It also provides ample scope for our States/UTs to add/adapt content with local perspectives in the versions that they may develop as per the recommendations of NEP 2020.

NCERT appreciates the hard work done by the committee set up to develop the syllabus and learning-teaching material for the foundational stage. I thank the Chairperson of this committee, Professor Shashikala Wanjari, and all other members for completing this task in time and in such an admirable way. I am also thankful to all the institutions and organisations which have generously extended their help and assistance in making this possible. I am especially thankful to Dr. K. Kasturirangan, Chairperson of the National Steering Committee, and its other members, including those of the Mandate Group, its Chairperson Professor Manjul Bhargava, and members of the Review Committee, for their timely and valuable suggestions.

As an organisation committed to reforming school education in Bharat and continuously improving the quality of all learning and teaching material that it develops, NCERT looks forward to critical comments and suggestions from all its stakeholders to further improve upon this textbook.

About the Book

Language is not only a medium of communication but also a vehicle for the continuous development of human beings. As per the *National Education Policy (NEP) 2020*, language plays an important role in promoting national development and contributes to the development of a just society. This policy has given much importance to the development of language and literacy in the education of children as these create a foundation for the learning of other subjects. NEP 2020 focusses on developing the skills of learning to learn, problem-solving, logical reasoning, critical thinking and creative thinking along with language development at the Foundational Stage.

In consonance with the approach advocated by the National Curriculum Framework 2022 and for Language Education and Literacy at the Foundational Stage, children learn concepts faster in their home language. Therefore, the primary medium of instruction would optimally be the child's home language, mother tongue or familiar language. Hence, here English is considered as second language (L2). Accordingly a communication-focused approach has been adopted in the English textbooks. The aim of this book is to enable the child to develop strong oral language skills (adequate vocabulary and oral expression skills) by the end of Foundational Stage. In addition to oral language development, written language is also being introduced to the learner in a gradual and sequential way. The textbook takes into consideration the curricular goals, competencies and learning outcomes mentioned in the NCF-FS 2022 and the syllabus developed for the Foundational Stage.

Children learn through observation, imitation and collaboration. They also learn through concrete experiences, using their senses and acting upon the environment; this has been kept in mind while developing the textbook. The content included in this book is drawn from the experiences of children and is suitable for their developmental needs as it provides ample opportunities for imagination, storytelling, art, music and play. The content is also supported with art-integrated and cross-curricular based activities which makes learning fun for the child as well as reflects the life of and around the learner. Both prose and poetry are centered around the themes of self and society, toys and games, health and hygiene, cleanliness, environment, travel, culture,

national identity and patriotism and the values pertaining to Global Citizenship Education (GCED). Further, the textbooks also encourage the teachers to go beyond the content and use a variety of relevant learning-teaching material depending on the context and the cognitive appropriateness of their learners.

Illustrations are of primary importance and more so in a second language textbook, they are not mere add-ons to the textbooks, but are integral to it. Through this book, the learners are given ample exposure to the alphabet (both small and capital letters). Gradual progression in writing from drawing and labelling, simple words to simple phrases and then to simple sentences has been followed. Plenty of picture-stories as well as colourful and relevant illustrations support all the texts throughout the book to augment their comprehension. In addition to that, illustrations also provoke the learner's critical thinking.

An effort is made to present language-learning as a holistic process of thinking, listening, observing, speaking, reading, imagining and writing. So, a reading activity may be followed by a drawing task or an oral discussion or could be preceded by a discussion on a picture and so on. A variety of activities, tasks, songs, poems and stories help the learner comprehend and practice the concepts. These are done through various sections, like 'Let us sing', 'Let us speak', 'Let us read', 'Let us draw', and 'Let us write'. This not only helps the learner in the process of language acquisition but also builds up their confidence level.

The curricular goals (CG as mentioned in NCF-FS) have been addressed in the textbook. CG 9.1 'listens to and appreciates simple songs, rhymes and poems' finds ample reflection in the action songs and engaging short poems in every unit. Young learners are encouraged to think of rhyming words, which addresses CG 9.2. Words related to familiar objects and events from day-to-day life are found in all the lessons in this textbook. This is related to CG 9.7—'knows and uses enough words to carry out day-to-day interactions effectively and can guess the meaning of new words by using existing vocabulary'. Further, there are exercises provided for young learners to engage in meaningful conversation, which is very important in L2. CG 9.3 rightly addresses 'converses fluently and can hold a meaningful conversation'.

One of the highlights of the book is the focus on communication in each unit, in the subsection titled 'Let us speak'. The objective of the activities is to encourage conversation and develop the child's confidence in speaking in English, so that the child will move progressively towards independent engagement with English language.

Activities such as 'Join the dots in alphabetical order' is an example of an instruction that the child needs to understand to complete a given task, as indicated in CG 9.4. Interesting stories in simple language are provided in the textbook in accordance with CG 9.5 and CG 9.6 which covers comprehension and narration of stories and identification of characters. A lot of exercises related to phonological awareness have

been introduced at regular intervals throughout the book, to address CG 11.1. Phonological awareness is the ability to discriminate between similar sounding words. Since a child who is phonologically aware is more likely to become a successful reader, it was important to find ways of developing this awareness through tasks given in the textbook. Most importantly, children are encouraged to have fun and play with words.

One of the major recommendations of NCF-FS 2022 is the inclusion of knowledge of India. Indian values and traditions have been presented to the learner in an easily comprehensible and acceptable way. This has been achieved through aptly placed illustrations, Indian ways of greetings like '*Namaste*' in 'Greetings', exposure to a variety of Indian foods from across the country in the lesson 'Eating Together', exposure to a variety of fruits and vegetables found in India in the lesson 'A Visit to the Market', and so on.

Chapter 1 of Unit 1 titled 'My Family and Me', talks of parts of the body with an emphasis on hygiene; it also helps children to associate actions with words. Chapter 2 inculcates politeness by introducing the various ways of greeting others, including '*Namaste*'. Chapter 3 introduces young learners to the concept of family, through a story of a sparrow family, enabling them to learn words related to family members.

Unit 2 titled 'Life Around Us', introduces children to the animals and birds in the surroundings. In Chapter 2, children learn the prepositions 'up' and 'down' through the familiar Indian folktale 'The Cap-seller and the Monkeys'. Chapter 3 emphasises rhyming words, through the comic strip 'Catch me if you can'. Chapter 4 introduces young learners in the farm and around the home.

Unit 3 titled 'Food' in Chapter 1, provides a glimpse of the variety of fruits, vegetables and flowers found in our country. Chapter 2 titled 'The Food we Eat' emphasises having respect for food, importance of saying a short prayer before eating meals, and addresses the diversity of food in our country.

Unit 4 titled 'Seasons' in Chapter 1 discusses the various seasons, and the changes in temperature, items of clothing, etc. Chapter 2 has a beautiful story on the colours of the rainbow. The chapter ends with the colouring of the national flag.

Multilingualism has been interwoven into the tasks and activities with specific guidelines to the teacher, wherever required. This facilitates the learner to move progressively from the home language to English. It also helps to shift from teacher-driven classroom to learner-centric classroom.

This book aids in the holistic development of the learner. The chapters aim at stimulating development of socio-emotional domain of children, through poems and narratives related to their family, neighbourhood and community.

Language and literacy, physical, socio-emotional, aesthetic and cognitive domains have been integrated along with the development of positive habits to create a learning impression in totality for children. Development of *Annamaya*, *Pranamaya*, *Manomaya*, and *Vignyanmaya kosha* is an ongoing process which leads to the manifestation of *Anandmaya kosha*. The present textbook is a step in this direction.

In addition to the material provided in the textbook, teachers may also use the matter embedded in the QR code. Further, as suggested in 'Note to the teacher' sections given throughout the book, teachers are encouraged to use local stories, proverbs and objects in the classroom, as well as audio and video support from DIKSHA platform. The textbook is only one tool, learning needs many resources.

This textbook is not the only source of learning. Children learn much more while observing the environment around them, talking to peers and elders including grandparents, making things of their interest, watching TV, playing with mobile, toys and games, listening stories, poems, doing projects, visiting places of cultural importance and travelling. Therefore, we, as teachers or parents, need to value this learning which goes beyond the textbook and try to map it with the competencies and curricular goals identified for this stage. Education of our children is seen as our collective responsibility.

Anandi's Rainbow

It was raining outside. Anandi was fast asleep dreaming of rainbows. She woke up to look out of her window. There was a huge, bright rainbow across a clear blue sky.

Anandi ran out to the garden with Milli, her favourite cat.

Anandi loved to draw and paint. Today, she wanted to paint the flowers of her garden with the colours of the rainbow.

She coloured one flower with violet, and another with the indigo of the rainbow. One with the blue and leaves with the green.... One with orange.... One with red....

But she left the yellow so that the Sun may look bright and gay.

And lo! There were beautiful flowers all over the garden. The Sun was up there shining in its yellow glory.

After giving colours to the flowers and the Sun, the rainbow was gone.....
